

Fire Safety Strategy Starts Here

FireCORR 2021 Virtual Conference

November 16-17, 2021

Explore the latest trends in passive fire protection (PFP) and corrosion from industry leaders and experts at FireCORR Virtual Conference 2021, organized by NACE International and the Polish Corrosion Society (Polskie Stowarzyszenie Korozyjne). This two-day virtual conference brings together delegates around the globe to share best practice strategies, market insights and the latest proven solutions to tackle fire and corrosion issues across process plant and civil infrastructure.

Topics:

Material development for PFP applications

- Technologies and their applications, processes, economics and environmental impact
- Material selection
- Advanced techniques in PFP measurements

Durability of PFP

- Fire resistance after long-term weathering
- Maintenance of steel/concrete structure
- Testing methods for PFP efficiency of aged systems applied on steel structure
- Material degradation and corrosion threats, barrier status, and process safety issues

Standards and implementation

- Development of industry standards and regulations
- Use of performance-based measures vs. prescriptive measures
- Regulatory changes in responses to major incidents

Coatings systems

- Surface preparation and coating applications
- Coating failures
- Coating inspection
- Case studies

Interested? We'd like to hear from you.
